GOD SAVE THE KING

Steinway Piano Used

Bathurst Street United Church is happy to have another share in the now well-established series of Good Music Concerts organized by the Toronto Star. This Church therefore extends a very cordial welcome to the citizens of Toronto and its environs who are gathering here this evening.

Bathurst Church has a particular interest in Community enterprises. We believe that the proper approach to, and solution of, our world's troubles are considerably encouraged by such experiences, cutting as they do across denominational and sectarian differences. Where can we find a better answer to the heart's common needs than in the common language of good music? It is in such soil as this we plant Good Seed together tonight!

The officials, and the senior choir, of this Church are glad for the share that is theirs in co-operating with the Toronto Star in the program. As this kind of entertainment moves from church to church across our city may its contribution to our common well-being continue to increase.

GORDON DOMM, Minister,
Bathurst Street United Church.
